

STELBOLT® - A revolutionary method to restore furnace lining effectiveness.

- Eliminate deteriorated or failed lining tear-out.
- Eliminate deteriorated lining disposal.
- Eliminate welding of anchoring system.
- Eliminate mark-out of shell for anchoring of new system.
- Upgrade furnace insulating value.
- Upgrade furnace operating use limit.
- Upgrade furnace lining life.
- Equally effective over all fiber systems, insulating brick and lightweight castable.
- "Simplicity with Effectiveness".
